OPERATING & SAFETY GUIDE

Electric water boiler/Urn (various sizes)

These appliances are only for
professional use by a qualified person

GENERAL SAFETY ADVICE

We would have prepared/tested and checked these items prior to you receiving them to ensure safe and full working condition.

Electrical equipment is required to be properly maintained so as to prevent danger to the user.

It is our policy to inspect every electrical appliance before re-hire. This is done by an electrically qualified person trained in PAT Testing. This combined inspection and test includes:

- Visual Inspection
- Earth continuity tests (for Class I equipment)
- Insulation resistance testing (which can be replaced with protective conductor/touch current measurement)
- Flash Testing (or Hi-Pot testing)
- No load (run) test
- Polarity check (extension or detachable lead sets only), and
- Functional tests

The results of each test are recorded and are kept as

OPERATING INSTRUCTIONS

1. Fill the tank with water as required.
(Do not exceed the maximum fill line)
2. Plug in and turn on the water boiler.
3. When the water has boiled or achieved the required temperature, alter the thermostat accordingly.
4. Use the water as required.
5. Carefully refill the boiler with water as required taking great care not to be scolded or wet any electric parts of the boiler.
6. Turn off and unplug the boiler after use.
7. Let the water cool after use before carefully emptying.

SAFE USE

The safe use of hire equipment is the sole responsibility for the hirer once the items are collected or arrive on site.

Angelo's staff are not allowed to install equipment on site, and you are not permitted to make any alterations to the appliance or its connectors in any way.

If in any doubt please ask an call us for advice

- Never use the equipment in a poorly ventilated space or near combustible materials.
- Keep all children, animals and bystanders away from the appliances whilst in operation.
- Ensure the floor of the work area is flat, free from trip hazards and non-slip.
- Keep a bucket of water nearby to treat burns.
- Use CO2 extinguisher to hand in case of and emergency.
- Wear suitable protective clothing, such as an apron, overall and hat. Use kitchen gloves for handling utensils to protect from burns.
- **Allow the appliance to cool fully before touching or cleaning.**
